

EDUCATIONAL  
FURNITURE

**MITYBILT**

Taking you to the top of the class.

## MANY STYLES. ONE STANDARD.

MITYBILT isn't a style; it's a standard of excellence.

We looked for tables strong enough to meet the demands of educators; we searched the furniture market but we couldn't come up with anything that exactly met the need.

So we did the obvious... we listened to you... and designed our own!

We created a table that would more than stand up to the daily use of a hard working environment. With carefully sourced parts and extensive product engineering and testing, we came up with table designs that easily withstood the most rigorous real-life situations.

The **Addition** has a modular design that can be used either stand-alone or with further add-on units. The flexibility helps you to create an organized environment which can be changed at any time as your needs develop. Also works well as an island.

# DRAFT

The DRAFT is the ideal table for aspiring artists and architects that need an appropriate surface for drawing and other graphic tasks. DRAFT tables are available with either fixed or adjustable angle work surfaces or a dual surface table incorporating both adjustable and fixed work surfaces.
