

System**STOR** 

A place for everything. Everything in its place.

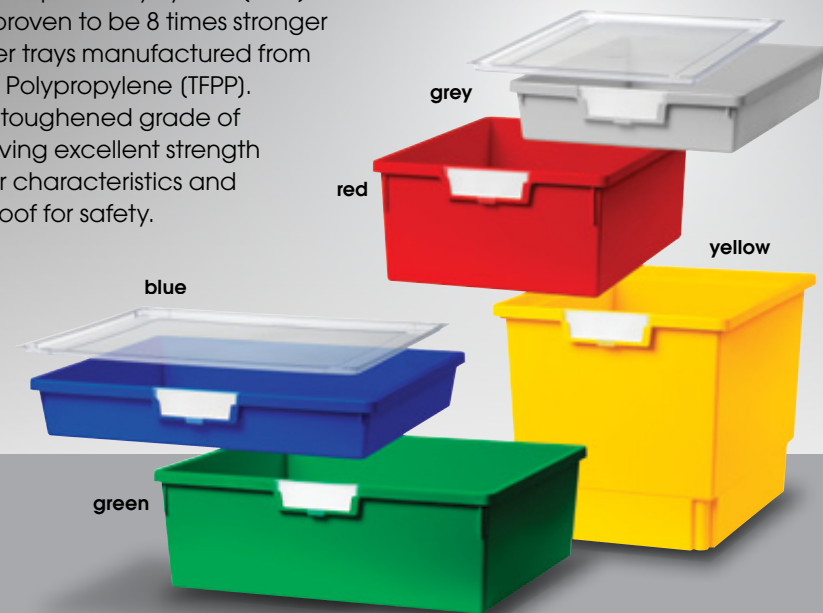

ORGANIZED TIDY MOBILE SystemSTOR

SystemSTOR is an adaptable, flexible, high-quality storage system that is used from education and office to home storage. Either in fixed or mobile units the trays are perfect to make the best use of space keeping your areas efficient, effective and looking good too.

- Trays are available in 5 sizes and 5 colours.
- Injection moulded lid clips to tray keeping contents safe and also allows the trays to be securely stacked.
- There are 5 different types of 'tray inserts' for storing small items in the trays. Each tray accommodates any combination of two 'tray inserts'.
- Smooth internal surfaces for easy cleaning.
- Storage units available in metal or wood with optional casters.

Colour Options

All SystemSTOR trays are manufactured from High Impact Polystyrene (HIPS) which is proven to be 8 times stronger than other trays manufactured from Talc filled Polypropylene (TFPP). 'HIPS' is a toughened grade of plastic giving excellent strength and wear characteristics and shatterproof for safety.

The ticket window allows the use of name cards to be secured behind a clear clip on window. At the other end of the tray an 'easy peel' stippled label area enables the application of a full width label.

EW Tray Lid	469 / 18.5	425 / 16.75	10 / .375

Glide & Tilt Tray Runner Module

NEW GLIDE & TILT DESIGN

All SystemSTOR metal and wooden storage units incorporate the new patented 'Glide & Tilt' tray runner module.

This feature provides safe storage of trays. The tray is held in an angled open position without falling from the unit, making for easy access and clear display of the tray contents. With a simple manoeuvre the tray can be easily withdrawn from the unit.

Specifications

WOODEN STORAGE UNIT

Ideal for Primary and Secondary Schools as integrated storage equipment.

- Constructed from high quality, high performance thermally-fused Maple laminated particleboard and edged with matching 3mm PVC edge band.
- The units provide a continuous work surface where they are located together.
- Mobile or fixed.
- All units supplied complete with trays of your choice, ready for immediate use.
- Fully assembled

fusion maple

METAL STORAGE UNIT

Ideal for all educational grades and very popular in laboratory store rooms.

- Constructed from 1" 16 gauge mild steel. Finished in a durable powder coat finish (choice of 7 colour available)
- Units can be added to or built up to give extra options on storage.
- Heavy duty casters are fitted as standard on all larger units or an alternative of adjustable feet.
- Unit supplied complete with metal top, your choice of trays, ready for immediate use.
- Fully assembled

D	4 division stortray insert	286	200	60	H	469	425	10			

Storage Tray Accessories

5 different types of 'tray inserts' are available; any 2 inserts can fit into the single width tray. Inserts are injection moulded for strength, and are designed for use as a stand-alone item outside the stor tray as well as for use within.

Combining the plastic stor tray with stor tray lids and security clips makes a totally secure storage container, which eliminates products from becoming mixed up. This system allows for storage of the huge number of resource items used throughout schools.

Small and very small items fit into the tray inserts, inserts fit neatly into the stor trays and the stor trays fit into our SystemSTOR units.

A place for everything. Everything in its place.

Options

- Optional doors on storage unit
- Stor trays beneath tables
