MITYBILT

About

MityBilt is an established business with almost 20 years of experience, and known as a company that is dedicated to both its current and future clients. Our aim is to provide the highest quality customer service exceeding the industry expectations. MityBilt's steady growth over the past years has come with a reputation of a high quality product, a hardworking team and customer satis-faction. We deal in both the Institutional and Office settings; including libraries, colleges, halls, sports facilities and other areas that call for 'hard-working' furniture. Our experienced sales staff will work closely with you ensuring that you receive the most appropriate furniture for your environment. Through our long term relationships with our clients, we have a clear understanding of your expectations and requests.

Made in Canada

We are proudly Canadian owned and operated, and based in Stonewall Manitoba. With the wealth and quality of resources available in Canada, it has enabled us to manufacture products that are made up of entirely Canadian raw materials. As a responsible manufacturer we take great care in designing and developing products that will work well for you, and not only look great but work and function with you in mind. Our extensive in-house capability allows us to quickly adapt to the ever changing demands of the market while reducing your lead times and maintaining full quality control.

Environment   **GreenGuard Gold**

Using material from eco-sustainable sources, including a guaranteed recycled content, green guard laminates, low formaldehyde emission core materials, water based adhesives and paint finishes containing no Volatile Organic Compounds (VOCs), all reduce the Carbon Footprint of our products. Unavoidable manufacturing waste is recycled wherever possible. Effective care for the environment involves working with others; it needs everyone to aim for the same goal. We want to work with you and your clients to provide responsible solutions for their furniture needs, and to minimize the impact on the environment.

Warranty

MityBilt has built a reputation by engineering products that exceed consumer expectations for quality and durability. Our design team is obsessed with making our products even better. We constantly stive to make them truly amazing, and stand behind them once they've left our facility. We are proud to offer a limited lifetime warranty on everything we make. Don't you wish all furniture manufacturers did this?

Product Testing

MityBilt has confidence that every product it manufactures will perform beyond the demands of real world situations. An in-house test facility subjects our tables, chairs and components to extreme forces for hours on end to make certain our products will exceed your expectations. Many tests are carried out on our products during both development and production.

MityBilt uses a third-party accredited test laboratory to perform certain complex testing and to keep up to date with current test requirements and legislation. MityBilt structural table testing exceeds the demands of ANSI-BIFMA and CGSB.

Specifications

Table Top
- 1" Industrial Grade Particleboard Core (45lbs foot density)
- High Pressure (HPL) scratch resistant laminate for longevity with balancing backer sheet

Colours & Finishes
- Durable powdercoat finish from MityBilt colour selection
- High Pressure Laminate and 3mm vinyl bonded edge from MityBilt colour selection

Table Frame
- 30mm x 70mm Tubular End Frame
- Fully welded End Frame
- 30mm x 30mm work surface supporting beams
- Adjustable Floor Glides

Options
- Wire Management kit
- Sliding Work Surface
- CPU Holder
- Adjustable Height
- Desk Top Divider

Wire Management Kit – Optional
- Pressure fit wire management covers hide wires quickly and easily
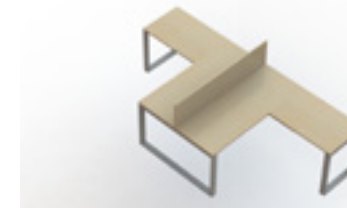

Sliding Work Surface – Optional
- Sliding work surface makes organizing wires a quick and easy task while keeping them very accessible

Tutor

The Tutor has been created to offer everyone solid convenience, excellent materials combined with simple ideas which, together, offer you furniture of indisputable quality.

Specifications

Table Top
- 1" Industrial Grade Particleboard Core (45lbs foot density)
- High Pressure (HPL) scratch resistant laminate for longevity with balancing backer sheet.
- 3mm vinyl bonded edge

Colours & Finishes
- Durable powdercoat finish from MityBilt colour selection
- High Pressure Laminate and 3mm vinyl bonded edge from MityBilt colour selection
- See page 52 for MityBilt colours and finishes guide

Table Frame
- Table end frames constructed of 3" diameter steel tube with steel cross bars. Modesty panel bolted to end frames and work surface
- Fully welded construction
- Adjustable floor glide
- Table height 29-1/2"

Options
- Heights
- Finishes
- Modesty panels
- Castors

Integral Wire Management System
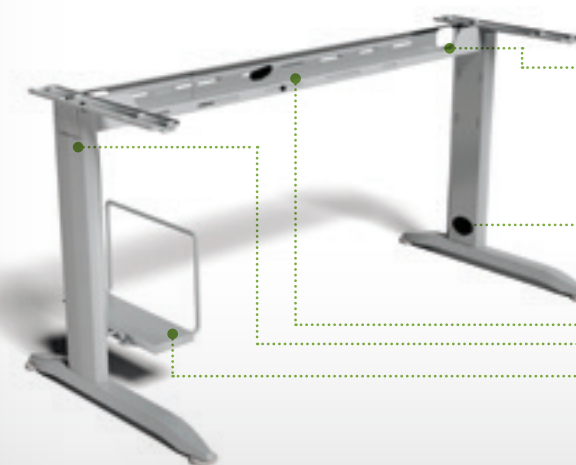

- Cut away front wire management channel allows for quick easy access of wires with table top on.
- Leg mounted grommets allow for hiding of wires inside the desk leg keeping your office smart and tidy.
- Structural wire management channel keeps wires and power bars organized and out of site.
- Knock out plates allow for continual flow of wires between tables when in a ganged configuration.
- Optional CPU holder fixes next to grommet for ultimate wire management.

Pogo2

The Pogo2 is engineered to provide truly outstanding flexibility. An adjustable workspace allows the employee to individually adjust the table for their optimum comfort, producing increased productivity. Full adjustment is available even with an L-shape configuration. Now you have a stylish and ergonomic option in changing the way your work.

Specifications

Table Top
- 1" Industrial Grade Particleboard Core (45lbs foot density)
- High Pressure (HPL) scratch resistant laminate for longevity with balancing backer sheet.
- 3mm vinyl bonded edge

Classic

When it comes to rugged durability the Classic table stands alone, offering exceptional strengths that an industrious environment demands. We created the Classic the obvious way… first we listened to you, then we designed ours. Classic.

Specifications

Table Top
- 1" Industrial Grade Particleboard Core (45lbs foot density)
- High Pressure (HPL) scratch resistant laminate for longevity with balancing backer sheet.
- 3mm vinyl bonded edge

Table Frame
- Table frame constructed of 1" x 3" x 1" channel section, with integral "pozi lok" corner bracket and 1-1/4" x 1-1/4" steel legs. Leg retention by support on each leg face and locking set screw
- Heavy duty steel adjustable floor glide with rubber cush-ion and non-removable foot
- Adjustable floor glide
- Table height 29-1/2"
