ESPÄCE^WALL

The shortage of space has become an increasingly important consideration within today's workspace environment.

To fulfill today's operational demands, provision must be made for a productive, efficient and functional environment - yet one that has the flexibility for the requirements of tomorrow.

LIMITED SPACE UNLIMITED OPPORTUNITIES

Espäcewall provides a modular wall system that incorporates individually specified storage options to improve your working environment.

Espäcewall creates new storage opportunities by using the full height and length of the available area when compared to conventional cupboard and filing options.

Espäcewall is capable of combining storage requirements and room dividing walls into one efficient product, saving costs of conventional dividing walls and storage furniture.

Espäcewall establishes a modern and timeless office environment that will provide for and adapt to your storage and filing needs now and in the future.

YOUR SPACE FLEXIBLE PLANNED MANAGED

Espacewall offers innovative solutions to familiar office problems by providing maximum storage capacity in minimal floor space.

From business archives to personal storage, Espacewall continually provides more storage capacity by reclaiming the space typically wasted above conventional cupboards and filing cabinets.

Filing solutions, shelving options, bookcases, plan hangers and much more, can all be accommodated within Espacewall.

ESPÄCEWALL

SPACE FOR HIGH STANDARDS AND GREAT EXPECTATIONS

Efficiency is strived for in every business. It is achieved by reducing effort, energy and resources.

Espacewall can be used as a perimeter wall or to divide a room. This provides practical storage solutions in a cost effective manner without losing the advantages of solid construction and the visual appeal of a timeless design.

Espacewall options include; display units, audio visual presentation units, alcoves, personal closets and more.

ESPÄCEWALL

SPACE SAVING CONCEPT

Provision for storage is rarely a priority, yet maximum efficiency can only be achieved when management of space is considered as an integral part of the planning process.

ESPÄCEWALL

BENEFITS

Espäcewall storage systems save up to 65% floor area.

Espäcewall is an economical alternative when compared to conventional partitions and storage furniture.

Espäcewall removes areas that collect unsightly material.

Espäcewall can be personalized to provide a client-specific layout.

SERVICE

Regardless of the size of your project Espäcewall delivers a high quality storage solution, carefully finished in your choice of colour and material.

We will work closely with you to meet your design aesthetics, functional requirements and budget criteria.

We provide you with superior service. Our CAD draftsmen work closely with the project manager to help with your design layout and renderings. During manufacture we will keep you informed of progress and schedules.
